In 2015, the South County service area was declared a

Medically Underserved Area/Population by the U.S. Department of Health and Human Services. This means that residents in the area have a shortage of health services and the area includes large groups of people who face economic, cultural, or linguistic barriers to health care. This makes AGCH an important resource for our community, and we need to grow to meet the need.

Last month we learned:

The cancer programs at Mission Hope Cancer Center, Arroyo Grande provide a well-rounded approach to treating each patient, alongside several ongoing classes for patients and family members.

Our Hospital

Mission Dignity Health and Arroyo Grande Community Hospital are committed to furthering the healing ministry of Jesus. We dedicate our resources to delivering compassionate, high-quality, affordable health services, serving and advocating for our sisters and brothers who are poor and disenfranchised, and partnering with others in the community to improve the quality of life.
