In 2015, the South County service area was declared a

Medically Underserved Area/Population by the U.S. Department of Health and Human Services. This means that residents in the area have a shortage of health services and the area includes large groups of people who face economic, cultural, or linguistic barriers to health care. This makes AGCH an important resource for our community, and we need to grow to meet the need.

Last month we learned:

The situation with COVID-19 is continuing to evolve as are the treatment and prevention methods. The Omicron variant currently makes up 99.9% of all cases of COVID in the US. Omicron is more transmissible than previous variants due to immune evasion, meaning vaccinated individuals and those previously infected can be re-infected because of mutations.

Our Hospital

Mission Dignity Health and Arroyo Grande Community Hospital are committed to furthering the healing ministry of Jesus. We dedicate our resources to delivering compassionate, high-quality, affordable health services, serving and advocating for our sisters and brothers who are poor and disenfranchised, and partnering with others in the community to improve the quality of life.

3rd Anniversary of CommonSpirit Health

What does it mean for Arroyo Grande Community Hospital?

In California, we still publicly go by Dignity Health. While being a larger company isn't always better, we have seen the benefits of understanding other markets, better pricing, and more opportunities to learn from others. Being part of CommonSpirit Health does not affect how we implement strategies or deliver care locally, and administratively, it makes us better.
