Dear Friends,

In the face of the worldwide COVID-19 pandemic, we want you to know that Arroyo Grande Community Hospital is focused on continuing to do what we do best – delivering excellent care with compassion and kindness while respecting the dignity of each person. We hope you will join us by doing what you can to protect yourself, your family, and your friends during the COVID-19 pandemic.

In this stressful time, **virtual urgent care visits** are available for patients experiencing mild to moderate symptoms of COVID-19.

“TeleHealth services offer patients an alternative method for care and are an excellent option for communicating with their healthcare provider during this time of extreme precaution and social distancing”,

says Scott Robertson, M.D. “We are taking extensive measures to ensure the health of those we serve is preserved across our continuum of care. Patients may call their physician today for a TeleHealth visit. If individuals do not have a physician and need an office or TeleHealth services, they can call 805.545.7000.”

Our job here at Arroyo Grande Community Hospital Foundation is to help provide the vital resources needed by our physicians, nurses and other health care providers. To make it easy for you to help in the fight against COVID-19, the Foundation has established an [Emergency Support Fund](#). The fund helps the hospital fund all the additional costs for providing critical resources needed to care for our patients during a crisis, such as the current COVID-19 pandemic. For more information about the [Emergency Support Fund](#) and other ways you can help, please click [here](#).

If this is a time when you are able to make a gift please click on the "[Donate Now](#)" button below.

Your gift – an act of human kindness – will help save lives.

Stay well. Be healthy.

With gratitude,

Montisa Phelan Lopez

Vice President, Philanthropy

Arroyo Grande Community Hospital Foundation

You can make a difference today by supporting the Emergency Support Fund which will provide necessary resources (supplies, staffing or equipment) to support our physicians and nurses in caring for our patients.
