

Breast Cancer Awareness Month

October brings us more than pumpkin-flavored treats and Halloween. It's also Breast Cancer Awareness Month, and it's a great reminder for you or your loved ones to schedule a mammogram!

3D Mammography

With community support, the Foundation was able to help purchase a 3D Mammography machine, housed at the [Coastal Diagnostic Center](#). This machine has high image resolution and can detect breast abnormalities with incredible accuracy. You can take advantage of this lifesaving technology by scheduling a mammogram appointment at the Coastal Diagnostic Center at 805.481.4705.
