## Building a Future for Our Community

As you may have noticed while driving by the hospital on Fair Oaks Avenue or Halcyon Road, the hospital is undergoing some major transformations with help from our community through the [Legacy Campaign](#). The Emergency Department, Acute Rehabilitation Center, imaging services, and cancer care services are all being upgraded and expanded, and we're starting to see some serious progress!

### Emergency Department

**Before:**

The Emergency Department was previously aligned with the rest of the hospital facade.

**Now:**

**Coming Soon:**

The Emergency Department will now extend out into part of the parking lot. Not to worry - we have added a new parking lot to make up for it!

Construction is expected to be completed in December of this year.

**Matthew Will Memorial Medical Center (Will house expanded imaging and cancer care services)**

**December 2017:**

The site of the Matthew Will Memorial Medical Center was previously an empty lot behind the hospital.

**Now:**

This new building will house an outpatient imaging center, cancer care services, and physician offices.

**Coming Soon:**

Imaging services are expected to be open for patients by the end of the year, and cancer services will be open in early 2019.
